Re: Litigation information re: 7,223,235 patent

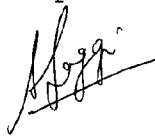

MPEP §2001.06(c) requires that "Where the subject matter for which a patent is being sought is or has been involved in litigation, the existence of such litigation and any other material information arising therefrom must be brought to the attention of the U.S. Patent and Trademark Office."

Applicant Health Hero Network is the assignee of the 6,968,375 and 7,223,235 patents.

On April 17, 2007 Health Hero filed a complaint against Patient Care Technologies ("PCT") in the United States District Court for the Northern District of Illinois (Eastern Division) alleging that PtCT is infringing the 6,968,375 patent.

On August 21, 2007, Health Hero amended its complaint to include the allegation that PCT is also infringing the 7,223,235 patent.

Respectfully submitted,
